CAREER OBJECTIVE

Results driven data professional specialising in data analytics, combining a strong academic foundation in Economics, Statistics, and Econometrics with advanced technical proficiency. Good at running errands in Python, R programming, advanced Excel, and SQL to extract actionable insights, build predictive models, and drive strategic decision-making in fast-paced environments

EDUCATION

M. Sc. Economics (Data Analytics) <i>Symbiosis School of Economics</i>	Expected 2027
B. Sc. Economics and Statistics <i>St. Joseph's University - 7.2 GPA</i>	2025
12th CBSE - PCM +Economics - 93% <i>Birla Balika Vidyapeeth, Pilani</i>	2022

CERTIFICATIONS

Coursera : Applied Text Mining in Python, Social media Data Analytics, MS Excel, Data Science in Python, IBM Generative AI

EXPERIENCE

May 2026-June 2026

Reserve Bank of India (Central Office, Mumbai)

- Worked as a summer Intern in the Interest Rate Division of Monetary Policy Department.
 - Evaluated how shifts in household savings from traditional bank deposits to market linked assets influence the effectiveness of monetary policy transmission in India.
 - Used MS Excel and graphical analysis to process financial data and assess structural changes.
-

ACADEMIC PROJECTS

Insider Threat Detection

August 2026

- Analysed 118,614 user activity records using 22 behavioural features for insider threat detection.
- Applied kNN and Naive Bayes models using the Orange Data Mining tool.
- Compared model performance using accuracy, precision, recall, Matthew's correlation coefficient and confusion matrices.

Macroeconomic Analysis of the Greek Sovereign Debt Crisis

November 2025

- Analyzed Greece's 2009–2018 debt crisis through Classical, Keynesian, and Monetarist frameworks, evaluating the impact of austerity on GDP, unemployment, and sovereign debt ratios.
- Applied macroeconomic models — crowding-out effect, Keynesian multiplier, and the Impossible Trinity — to assess policy failures and derive forward-looking fiscal reform implications.

Sustainable development research

October 2025

- Conducted survey about people's willingness to pay.
- Designed and administered a structured survey to analyse consumer behaviour and willingness to choose eco-friendly alternatives.
